I.Dekk® offers more than just beauty. Its patented formulation is, in part, what makes it a step above the competition. With a combination of Biodac®, rice hulls, high-density polyethylene resins, and other high quality ingredients, I.Dekk® has high fade resistance and very minimal water absorption in comparison to its wood composite competitors. Its strong I-Beam construction creates a stronger deck board than the competition even though it is lighter in weight. I.Dekk® won't rot or mold and will remain looking like new with only occasional light cleaning.

I.Dekk® contains no wood fillers unlike many other alternative decking products in the market. Over 50% of the materials in I.Dekk® are either rapidly renewable resources or reclaimed material that would normally be landfilled. Our formulation is why I.Dekk® is the solution to creating a dream outdoor living space.

Why I.Dekk® ?

- Limited Lifetime Warranty includes color fade and mold damage.
- Naturally mold and mildew resistant. High slip resistance.
- Tongue and Groove profile creates a gap free deck. Easier to clean.
- Available in six colors – Mahogany, Walnut, Cedar, Driftwood, Rustic Red, Copper Canyon.
- Easily repair minor scratches with a stainless steel wire brush.
- Concealed fasten with trim head screws. Use Genuine Green Bay Decking® screws.
- Innovative I-beam construction allows increased spans between joists and reduces heat build-up.
- I.Dekk® decking is available in 12', 16', 20', and 24' lengths. 12' x 12" Fascia optional.

Decking Profiles and Accessories
